

## Flu Shot Voucher Program

CenturyLink retirees can participate in the CenturyLink Flu Shot Voucher Program. You must be enrolled in a company-sponsored medical plan to receive a free flu shot. This voucher can be used at numerous locations such as CVS, The Medicine Shoppe and more. Check the [Kohl's website](#) often as more locations will be added this Fall.

Access the [Kohl's website](#) and enter "centurylink" for both the username and password. Then click "Get an Immunization Voucher". Enter your personal information and email address and the voucher will immediately be emailed to you. Use the **Pharmacy Locator** and your zip code to determine which pharmacies in your area accept the voucher.

### More Information About Flu Shots:

- The vaccine begins to protect you after one to two weeks, and protection may last up to one year. If you have specific medical questions, contact your physician.
- Vaccination is recommended for everyone six months and older. Up to 20 percent of the population gets the flu each year, leading to hospitalizations and more than 30,000 deaths. According to the Centers for Disease Control and Prevention (CDC), the single best way to prevent seasonal flu is to get vaccinated.
- **Important note:** Please contact your physician to discuss whether a flu shot is recommended for you.
- Certain states **do not allow minors** to receive vaccines at the pharmacy. Please check with your local pharmacy to determine any age restrictions in your state or read the [Vaccination Regulations](#).
